

Custom design the MOLICEL® lithium-ion rechargeable battery into your mobile device.

The ME202AH battery consists of a nine 2.2 Ah cobalt lithium-ion cells, providing 11.1 volts and 73.2 Wh of energy.

LITHIUM-ION RECHARGEABLE BATTERY PACK

PACK SPECIFICATIONS	
Capacity (Nominal)	6600 mAh
Nominal Voltage	11.1 V
Energy	73.2 Wh
Size	149.5 x 89.3 x 20
Weight	480 grams
OPERATING SPECIFICATIONS	
Operating Voltage	12.6 V to 9.0 V
Charge Voltage	12.6 V
Cutoff Voltage	7.5 V
Temperature Range Discharge Charge	-20°C to 60°C 0°C to 45°C
Maximum Discharge Current (Continuous)	3.5 A
Maximum Charge Current	3.5 A
STORAGE SPECIFICATIONS	
Temperature Range Recommended < 25°C for extended storage periods.	-20°C to 60°C
Recommended Voltage Range	12.6 V to 9.0 V
Please refer to Page 2 of this document for cell discharge characteristics.	
Issue Date: August 2002 Information subject to change without notice.
